Subject: zoning

Please do not take away the rights I have left to manage the property that is mine. I believe any planning concerning individual property should come to a vote of registered voters.

I surely do not understand some of the items that seem to be coming up. Protect our rights to that which we own and have worked for.

My grandparents and great grandparents came to this valley in covered wagons and helped to make this valley a wonderful place to live. I attended 12 years of school in Stevensville. My three children were born at Marcus Daly Hospital in Hamilton. The home we are living in has been in my family since 1918. Let's keep this valley beautiful and a place of peace and freedom with property rights.

Ila Marie Wood Niemann 132 1st Avenue Stevensville, Mt. 59870
